

Church Electrification Checklist

- 1. Audit of energy efficiency/fossil fueled appliances**
- 2. Renewable sources from the grid**
- 3. Photo voltaic rooftop solar**
- 4. Battery storage**
- 5. Space heating and cooling**
- 6. Water heating/hybrid air source heat pump heating**
- 7. Cooking/induction electric cooking**
- 8. Service panel upgrade**
- 9. Electric vehicle level 2 charger**
- 10. Other opportunities: lawnmowers, hedge trimmers, snowblowers, leaf blowers**
