

CLIMATE HOPE AFFILIATES

We believe hope and action go hand-in-hand in creating a more just and sustainable world.

As people of faith and conscience, we find strength in coming together with a common calling to act.

You are invited to join with us!

Who Should Join Our Chapter

- ✓ Those who believe we can accomplish more together than on our own!
- ✓ Those who believe the urgency and size of the crises before us require that Congress act accordingly.
- ✓ Those who believe that in order for our government to act we must act. We have the power to make a difference!

Our Commitment to Our Members

- ✓ To turn individual grief and feelings of powerlessness into collective purpose and action.
- ✓ To provide a structure of support month in and month out through our meetings and our national network of volunteer chapters.
- ✓ To empower all members to see themselves as community leaders making a vital difference.

Our Current Focus

The Trump Administration has been seeking to defund and dismantle the Environmental Protection Agency. In 2025, the Administration sought to cut the EPA's funding by 55%. Earlier this year, they repealed the Endangerment Finding which served as the scientific and legal foundation for the federal government to address the climate crisis. We urgently need to build opposition in Congress to the Administration's pro-fossil fuel agenda. Join us in this crucial moment!

Once we start to act, hope is everywhere."

—Greta Thunberg
